# Body Massagers & Blood Circulators for the Best Relaxation & Health

## Oxygen & Blood Circulation Machine

It assists in proper circulation of breath and blood in the body. The machine offered by us is extensively used for whole body vibration and acupressure exercise. OBC product is useful for every age group and offers quick relaxation to the body and mind.

## Chi Machine Morning Walker with Infrared

The Chi Machine is designed to work on various areas of the body that are related to joint pressure, stress, digestion, muscle activity, and more. The processes of the Chi Machine are said to allow the user to experience "effortless aerobic" exercise.

## Infrared Blood Circulator

The massager helps in alleviating chronic diseases like rheumatic arthritis, headache, insomnia, diabetes and cervical spondylopathy. At the same time, this massager improves oxygen and blood circulation thus reducing hypertension, muscle ache and strokes by enhancing blood flow.

## Crazy Fitness Machine

Crazy Fit Massage is the amazing Whole Body Vibration Training system that helps you attain your Weight loss, Body Shaping and Fitness goals. Vibration Training can achieve the same results in just a fraction of the time compared to conventional fitness training methods - With ONLY 10 minutes per day.

## Slimming Belts

Slimming Massage Belt is combined with point physical therapy theory and exercise science. It is equipped with slimming and toxin eliminating functions as well as invigorating vibrating massage. It can decompose fatness our body accumulates around waist into pieces, thus shaping your posture and beautify your body without any side effect.

## Acupressure Body Massager Handheld

It is a Handy Massager to massage parts of your body, not only when there is pain caused by muscular or nervous disorders, but on the regular basis to keep your body fit and trimmed. It can be used for massaging any part of the body with its 7 different types of attachments to suit the physical structure of different body parts.
