

# Royale Infrared Blood Circulator

After a tough day on the go, everybody deserves to relax, so why still put up with all the pain and body aches when you have the option of using Royale Infrared Blood Circulation Massager. The Royale Infrared Blood Circulation Massager effortlessly work to improve your blood circulation and relieve exhaustion.

The Royale InfraRED Blood Circulation Massager with wireless remote is built for simplicity and the sole purpose of improving your health and lifestyle. The control unit is very user friendly. The foot pads are comfortable, specially designed with elevated bumps for better and more effective contact with your feet, thus enhancing blood circulation.

## Performance

The Royale Infrared Blood Circulation Massager brings about a therapeutic approach to many diseases and ailments in your body. The massager helps in alleviating chronic diseases like rheumatic arthritis, headache, insomnia, diabetes and cervical spondylopathy. At the same time, this massager improves oxygen and blood circulation thus reducing hypertension, muscle ache and strokes by enhancing blood flow.

The Royale Infrared Blood Circulation Massager encompasses three major functions comprising of the Vibration, circumrotate and massage functions respectively. Each plays a vital role in enhancing the efficiency of the massager. The vibration function in the massager accelerates the blood flow hence promoting blood circulation that removes obstruction in the channels that leads to muscle relaxation and invigorates blood circulation.

The vibrations are also spread all around your body thus relieving you from body aches, and ultimately reforming your body. Royale Infrared Blood Circulation Massager infrared functions provide you quick pain relief and also help you in burning the fat around your body parts.
